What: Santa Monica Bay Watershed Advisory Council Meeting

Location: Westchester Community Room (Council Member Mike Bonin's Field Office), 7166 West Manchester Ave, Westchester, CA 90045

We are pleased to announce that a meeting of the Santa Monica Bay Restoration Commission's (SMBRC's) Watershed Advisory Council (WAC) will be held on Wednesday, January 17, 2018 from 1:30 pm to 3:30 pm at Westchester Community Room in Westchester, Los Angeles.

The purpose of this meeting is to further solicit stakeholder input on the Bay Restoration Plan (BRP) revision in a workshop format similar to the workshop conducted during the last WAC meeting on November 8, 2017. The upcoming meeting will be the second of a series of WAC meetings scheduled to engage members throughout the BRP revision process. At this workshop, we will start to move from Phase 1 (priority setting) to Phase 2 (action development) and seek input from WAC members on what specific actions (programs and projects) should be undertaken to advance the three BRP priority areas (water quality, natural resources, and benefits and values to humans) in the context of climate change.

We look forward to seeing you at the meeting. More information, including an agenda and related materials will be distributed to members prior to the meeting.

About the Santa Monica Bay Restoration Commission (SMBRC)

Established in 2002 by the California State legislature the SMBRC is a non-regulatory, locally based state entity, and one of three entities that comprises the Santa Monica Bay National Estuary Program. The SMBRC is charged with overseeing and promoting the Bay Restoration Plan (BRP) by securing and leveraging funding to put solutions into action, building public-private partnerships, promoting cutting edge research and technology, facilitating stakeholder-driven consensus processes, and raising public awareness. The BRP focuses on three priority areas—water quality, natural resources, and benefits and values to humans—to ensure the long-term health of the 266-square mile Bay and its 400-square-mile watershed. (www.smbrc.ca.gov)

our mission: to restore and enhance the santa monica bay through actions and partnerships that improve water quality, conserve and rehabilitate natural resources, and protect the bay's benefits and values
